

# POOL UMBRELLA OPERATING INSTRUCTIONS

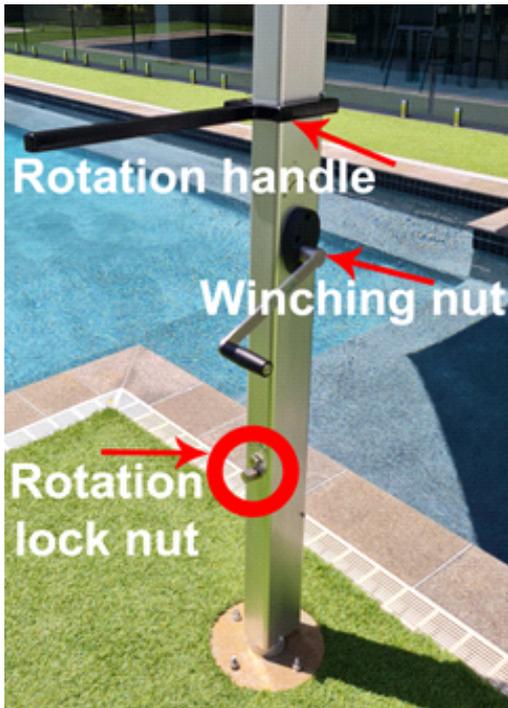

Figure 1

Figure 2

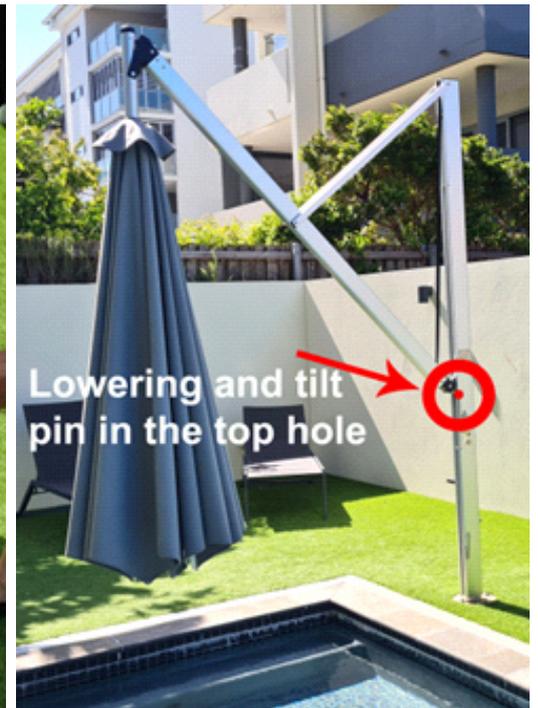

Figure 3

## ERECTING THE UMBRELLA

1. **PREPARATION:** Undo the storage straps and gently pull the fabric away from the frame.
2. **HANDLE SETUP:** Secure the handle onto the **Winching Nut** (Figure 1).
3. **UNLOCK:** Remove the **lowering/tilt pin** from the top hole - wind to take pressure off. (Figure 2)
4. **SET RATCHET:** Lower the **locking pawl** (lever) to the **bottom** position to hold the weight.
5. **OPEN UMBRELLA:** Wind handle **clockwise** until the canopy is fully open and the tube is near the top.
6. **SECURE:** Re-insert the **lowering/tilt pin** into the top hole.

## ROTATING THE UMBRELLA

1. **UNLOCK THE BASE:** Place the winch handle on the **Rotation Lock Nut** & turn it **anti-clockwise** exactly two turns.
  2. **POSITION THE HANDLE:** Move **Rotation Handle** onto the main column (Figure 1)
  3. **ROTATE:** Pull the handle in a circular motion to move the umbrella to your desired position.
  4. **RE-LOCK:** Return the winch handle to the **Rotation Lock Nut** and turn it **clockwise** to secure it
- ⚠ **Note:** Do not over-tighten, and ensure the nearby **thumb nut** remains loose.

## LOWERING THE UMBRELLA

1. **CLEAR THE AREA:** Rotate the umbrella over a clear space (like the pool) to ensure it clears any handrails or obstacles.
2. **VERIFY PIN:** Confirm the **lowering/tilt pin** is in the top hole (Figure 2).
3. **RELEASE TENSION:** Fit the winch handle and turn it slightly **clockwise** to take the weight off the **locking pawl**.
4. **DISENGAGE LOCK:** Lift and **hold up** the locking pawl (Figure 2).
5. **LOWER THE CANOPY:** While holding the locking pawl (lever) up, turn the handle **anti-clockwise**. The arm will slide down until it hits the pin (figure 3).
6. **FINAL FOLD:** Turn the handle slightly **clockwise** to lift the arm, remove the **lowering/tilt pin**, and then wind it down completely.
7. ⚠ **Crucial:** Pull all fabric out from between the metal ribs to prevent pinching or damage
8. **Store:** Replace the safety pin in the top hole and secure the umbrella assembly with both storage straps.

**NOTE: Winch Handle & Rotation Handle are stored in the pool storage box (behind waterfall). Lock combo - 152**
